The death of a student affects the entire University community, as well as the family and friends of the deceased. Considering the very sensitive and unpredictable nature of a death, no policy or protocol can describe in complete detail all the steps that must be taken. This policy sets forth guidelines to support communications in the event of a Student death. Those responsible for implementing this policy should be guided by the
essential communication needs required in these situations, as well as by empathy, sensitivity and support for the bereaved and the need to preserve important evidence.
